Thank you thank you for the updates and for teams circling back to this area!

This one is our #1 priority for Friday, in case there are any individuals still in the area at 8am.

Hello Morgan,

Keiyon and the team circled back. They outreached and notify folks staying there about the construction starting on Friday. 2 folks were leaving the area in a car and 2 folks were hanging around. The team spoke to the construction workers on site and they reported that the folks staying there weren't on their way, but I let the team know that there seems to be a greater mobilization happening on Friday.

I believe that SAN had also visited the other location our team was in the morning, so they may not have been to this one. I know from the email thread below that this location will be on the CARE 2 list again for Friday. If you could flag for PD and SAN the location so everyone can meet at the correct location would be helpful. Our team will be present at 8am on Friday to support clients who are asked to leave by the city. I mentioned 8am, since I'm assuming it will be the first location on Friday again.

Best,

Hi Enrique,

This is the North side of Chandler Blvd, this is not the correct area.

The South side of Chandler Blvd is across the street from the park (google image attached, circled in red).

Hello Morgan,

Our CARE 2 HET were there this morning and reported the following:

"Arrived at this location and it appeared to be no individuals in the area. The only sign of an encampment was a RV that we all attempted to make contact with but there was no answer. This location was first on our care list and appeared to be no one here earlier as well. We briefly spoke with a worker in the construction area but he didn't see any individuals either.

Before our departure we waited for a while just to make sure no other persons were in the area, and a man walked up just as we were leaving. He informed us that he was living in a vehicle further down. We notified him that there will be construction in the area soon and for his safety it isn't safe to be at this location."

Pictures attached. It appears that the only dwellers around are not inside, but on the

street and are car dwellers. Let us know if you have other info.

Hi Enrique,

LAPD HOPE is on this email chain, and can help with coordination. This is a city owned property, so it is public property. But it will be preparing for construction, and crews cannot begin until all individuals are safely off site.

Thank you,

Hi Marina,

Do we have a contact person for CD-2 to help us with the neighborhood issues and the homeless camps at Chandler? or should we just contact the LAPD?

The Contractor is scheduled to mobilize and move to the site on Friday 10/16. We need the site cleared before they can mobilize. Please let me know if there is anything we can assist you with.

Thank you for your help!

Thanks
